

THE ESSENTIALS OF WINTER

TOP 5 REASONS YOU NEED CUSTOM FOOTBEDS

SKI LONGER Support your foot and avoid arch pain and early fatigue.

SKI STRONGER Drive the skis with the base of your foot as well as the sides of the boot shell putting more power in your turn.

SKI WITH COMFORT Improve circulation keeping feet warmer.

SKI WITH STYLE Vastly improve performance with a better balanced position in the boot giving you better control.

SKI SMARTER Stop the progression of falling arches which can lead to knee, hip and back problems. Reduce the risk of ACL injuries.

Note: Snowboarders also have feet, arches and stance issues
